I visited Nepal and the Himalayas for the first time in 1996 and it changed my life forever. I wish for everyone to experience what I did, the lush hills, majestic mountains and grand nature. At the same time it makes me worried and sad to see the consequences of such an important and necessary industry. By wholeheartedly supporting the Save Everest 2011 project I want to help to raise awareness to the acute situation that the Everest region faces. It is our responsibility to again make this the clean and untouched place it deserves to be for the people of Nepal, visitors and future generations. Nepal has given me so much and it is time to give back.

Warm Regards
